Subject: SFS-19- x187 Commodity Storage Fee Payments to SFAs

Over the past few years, the LDOE has had sufficient administrative funds available at the end of the Federal program year to enable the agency to provide some assistance with the cost of commodity storage fees paid by SFAs.

This year, the LDOE has determined that sufficient funds are available to once again provide SFAs with some assistance towards their commodity storage expenses. Based upon the costs charged by LDAF and payments received by LDAF, USDA administrative funds available to the LDOE were applied toward those amounts.

According to the LDOE Appropriation Control staff, payments should be made today (September 17, 2019), via EFT.
